RE: Micron Technology in our Weekly Update - Invitation to respond

To whom it may concern:

Below is Micron Technology, Inc.'s response to the request for comment from Business & Human Rights Resource Center dated July 17, 2023.

"Micron complies with all applicable laws and regulations, including all export control regulations and economic sanctions, in every country where we operate. In compliance with restrictions the U.S. Department of Commerce has placed on Iran, Russia and an expanded list of prohibited Russian entities, Micron blocks shipments to Iran, Russia, Ukraine and Belarus. Micron conducts extensive due diligence on our distributors not only to assess risk of diversion but to stop shipments to distributors we believe may divert our products unlawfully."
