

March 1, 2022

Dear Valued Customer,

Molex is monitoring the ongoing developments in Eastern Europe. We are assessing the potential impact to our supply chain and customers as part of our Business Continuity Protocol. While the situation remains fluid, we can provide the following updates.

- **Supply chain impact:**
 - Molex does not operate any production or distribution centers within Ukraine or Russia.
 - Initial reviews confirm that Molex does not have any current major risks with direct suppliers.
 - We are evaluating potential impacts to secondary suppliers.
- **Logistics:**
 - Molex logistics teams are actively monitoring our existing land, sea and air carriers with routes traversing Eastern Europe.
 - Alternative route adjustments have been initiated to mitigate product disruptions between Molex and our customers.

We will continue to monitor the situation and will keep you advised of any changes or potential risks.

Your business is very important to us, and we are extremely focused on business continuity in support of our valued customers. Please contact your Customer Service Representative or Account Manager with any specific questions. General inquiries may also be directed to bcp@molex.com.

Sincerely,

Liam Buckley
Senior Director, Global Customer Service
Molex
